

WHY USE SPEAKMAN SHOWERS & EYEWASHES?

OSHA 29 CFR 1910.151, Subpart k, Section c

"Where the eyes or body of any person may be exposed to injurious corrosive materials, suitable facilities for quick, drenching or flushing of the eyes and body shall be provided within the work area for immediate emergency use."

- ANSI Z358.1 requires that **COMPANIES PROVIDE EMERGENCY SHOWERS AND/OR EYEWASHES WITHIN 10 SECONDS TRAVEL TIME OF A HAZARD.** Look for signs of hazardous materials and make sure eyewashes and showers are within the prescribed distance.

- OSHA Directive Number STD 1-8.2. "This directive provides guidelines regarding **EYEWASH AND BODY FLUSHING FACILITIES REQUIRED FOR IMMEDIATE EMERGENCY USE IN ELECTRIC STORAGE BATTERY CHARGING AND MAINTENANCE AREAS.**" Make sure emergency equipment is properly located near these hazards.

- The storage, transfer and use of flammable liquids require showers and/or eyewashes as secondary protection. Look for containers used to handle or store these materials and **MAKE SURE ANSI Z358.1 COMPLIANT EMERGENCY EQUIPMENT IS WITHIN 10 SECONDS TRAVEL DISTANCE.**

SOLUTIONS:

SE-4300

- Provides solution where water source is not readily available
- 20 gallon capacity provides a run time in excess of the ANSI Z358.1 required 15 minutes.
- hands free operation.
- Drain captures fluids, minimizing slip hazards.
- The industry's only portable eyewash that offers an optional side fitting drench hose. (SE-4920)

SE-580/SE-582

- Provides eyewash protection for industrial areas.
- Aerated spray allows users to comfortably flush their eyes.
- Automatic flow control assures smooth even flow of water over a wide range of supply water pressures.
- Available in either plastic (SE-580) or stainless steel (SE-582).

SE-693/SE-695

- Provides solutions for any application requiring full body drenching and eye flushing.
- Features an eyewash with dual aerated spray outlets, flip top dust caps and round bowl (plastic: SE-697 and stainless steel: SE-693).
- Combined on a galvanized steel stanchion with an impeller action deluge showerhead
- Activated by a high visibility yellow pull rod.

SE-927

- Counter mounted drench hose provides great flexibility for flushing the eyes or body.
- Comes standard with a flexible hose making it the ideal product to direct the flushing fluid to the contaminated area.
- Meets all ANSI Z358.1 requirements for an eyewash and offer the greatest product flexibility.

SE-220/SE-227

- Provides solutions for any application requiring full body drenching in case of fire or exposure to hazardous materials.
- Features impeller action showerhead, available and in horizontal (SE-227) and vertical (SE-220) models.
- Activated by a high visibility yellow pull rod.
