FOR IMMEDIATE RELEASE

Speakman Company Introduces new Combination Shower Product Line

New Castle, DE July 1, 2009 – Speakman Company is pleased to introduce a full line of combination showers, featuring Speakman’s stylish Anystream Euro handheld showers, Anystream Euro fixed showerheads and Anystream Designer Series fixed showerheads.

The combination shower line offers six different combination options and a variety of product finishes. Some of the options available for the showers include, slide bars, pop-up diverters, and 3-way diverter brackets.

A combination shower offers users the best of both worlds, allowing the option to use a fixed shower, hand shower, or both at the same time. A combination shower is the perfect solution for the versatile applications within the home, such as bathing a child or pet. The handheld component also allows the user to easily clean the shower.

These combination showers are ideal for homeowners who want a complete shower system for the price of many manufacturers’ single fixed showerheads.

To order or learn more about Speakman’s entire line of combination showers, please visit [Speakman Company](http://www.speakmancompany.com).

About Speakman

The Speakman Company was founded in 1869 as a plumbing pipefitting company. Retaining its independent and privately held status, Speakman has forged a reputation for continuous product innovation and quality leadership. Today Speakman continues to manufacture high quality commercial plumbing products, innovative emergency equipment and exceptional hospitality & residential showerheads. Speakman Company is registered to ISO 9001:2000, for more information on Speakman; please visit our web site at www.speakmancompany.com. ###
