FOR IMMEDIATE RELEASE

Speakman Company Introduces the SE-573 Back Deck Sink Mounted Eye/Face Wash

New Castle, DE March 30, 2009 – Speakman Company is proud to introduce the SE-573, Speakman's first back deck sink mounted swing down eye/face wash. The SE-573 joins an extensive line of eye/face washes produced by Speakman for multiple applications.

The SE-573 is activated when the user pulls the eye/face wash downward to a horizontal 90° over the sink basin and continues to supply water until it is returned to a vertical closed position. The unit supplies a 3.9 GPM flow of water at 30 PSI, creating an effective flow and pressure for proper eye/face decontamination.

The SE-573 is currently in stock and available for order. To find out more about this product or to place an order, please contact your local Speakman Sales Representative or Speakman's Customer Service Department at 1.800.537.2107.

About Speakman

The Speakman Company was founded in 1869 as a plumbing pipefitting company. Retaining its independent and privately held status, Speakman has forged a reputation for continuous product innovation and quality leadership. Today Speakman continues to manufacture high quality commercial plumbing products, innovative emergency equipment and exceptional hospitality & residential showerheads. Speakman's products are registered to ISO 9001:2000, for more information on Speakman, please visit our web site at www.speakmancompany.com. ###
